Driving licence (B)

EDUCATION

Engineering degree
Fluid Mechanics, Energy & Environment
2026–2029 ENSEEIHT, Toulouse

BSc in Fundamental Physics (L3)
2025–2026 Université Paul Sabatier, Toulouse

CUPGE, Physics & Chemistry
Engineering preparatory programme
2023–2025 Université Paul Sabatier, Toulouse

SKILLS

Programming languages
Python, Linux shell, Fortran

Software & tools
S2VNA, LaTeX, Jupyter, Matplotlib

Languages
French (native), English

Soft skills
Teamwork

INTERESTS

Sports: running (Lisbon Marathon), swimming (BNSSA), tennis, handball

Music & dance: DJ mixing, salsa

Travel & hiking

MAXIME SAMSON

ENGINEERING STUDENT
IN FLUID MECHANICS

PROFILE

Rigorous and dynamic, I am a 21-year-old first-year engineering student at ENSEEIHT looking for an operator internship (stage ouvrier) of at least 6 weeks in a company. My seasonal jobs as a lifeguard and in a supermarket have taught me teamwork, vigilance and respect for safety rules. Motivated and hands-on, I want to discover the day-to-day work of operators and how a company is organised.

EXPERIENCE

Research Intern
January 2026 – ISAE-SUPAERO, DEOS Department

- Measured RF components with a vector network analyser (VNA): antennas, filters, attenuators, circulators, couplers, waveguides and cavities.
- Explored a PhD topic: time-reversal plasma ignition.

Mathematics Tutor
2025–2026 – Université Paul Sabatier, Toulouse

- Supported students and marked exam papers.

Lifeguard (BNSSA)
July–August 2026 – ClicoChic campsite (Capfun group)
July–August 2025 – Village Club du Soleil Le Reverdi

- Supervised swimming pools and provided first aid.
- Welcomed and informed holidaymakers.

Fresh Produce Assistant
July–August 2024 – Super U, Léguevin

- Stocked fruit and vegetable shelves.
- Checked product quality.

CERTIFICATIONS

BNSSA	Lifeguard certificate – 11 June 2025
PSE1	First aid, level 1 – refresher on 11 April 2026
BIA	Introductory aeronautics certificate (ENAC)
